

Drumattic Twins- DEEP THROAT □ E.P **(Finger Lickin Records)**

1. '*Crazy Love*' Peo De Pitte rmx

2. '*Deep Throat*' Original 12"

3. '*HeartBreaker*'

Out Aug 10th 2009

There are only a few breakbeat tracks that make the dent these days, but when you combine the force of breaks/electro fusionist **Peo De Pitte**

with the pedigree of the

Drumattic Twins

it is no surprise that the result is dancefloor devastation. The

Drumattic Twins

are hardcore members of the elite beat making crew and here they deliver an awesome E.P with a saucy eclectic selection of hotties, encompassing an array of styles and influences.

Peo's remix is already causing a massive stir, a warehouse anthem in the making. **Peo De**

Pitte

aka

Peo Häggström

hails from the city of Stockholm, Sweden. His trademark combination of rare groove beats and cutting edge synth action has resulted in

making

Peo

one to watch in 2009! His remixes of

Haggstrom 'Be My Baby'

and

Marcus Rombo 'Bringing'

have won huge support from breaks and electro dj's and many others in between. Here he unleashes his talents mashing the f*ck out of the disco tinged original, taking the vocals of

Rayan

(

Shades of Rhythm

) and

Yolanda

(

Bugz in the Attic/Massive Attack

) to new heights. Chopping and filtering beats and peaking with a signature synth line that smashes through to the heart of the electro ravers.

Packaged with the rather amusingly named and

brilliant '**Deep Throat**', a disco-esque departure from the more typical DT sound, it keeps the funk firmly on the peddle. The

Deep Throat 12"

tickles and teases with its 70's strings, P Funk bassline and

Spiller

-esque summer vibe, a firm favourite to be taken from their recent

Hammer & Tongs

album.

'HeartBreaker'

completes the package with its

N-Joi

inspired keys that drift alongside a fat percussive breakbeat building into a massive synth breakdown. The result a shower of nostalgia that induces misty eyed memories of the good old days.

Drumattic Twins 'Hammer & Tongs' album is out now on **Finger**
