

“Mr.Personalidad” aka KL2 , one of fresh Luchadores in the League Of Extraordinary Gentlemen comes in colours again! The Stereo stealing Werewolf, Tiki warrior, deep sea greaser and rude gun toting redneck who protects Sevilla from villains and criminals is back in action with another shaking dancefloors and messing up headz anthem! He never takes his mask off and only respond to his Luchador name, although considered as superhero Puriacha (the mafia don) think of him as overgrown nerd. His Tech-Funk techniques are purely awesome and he's perceived as the inventor of at least ten irresistibile Luchador fight moves! Here he's teaching us the incredible and unique Ghetto Slang move, a superb move that only a furious Luchador like him can perform!
