This EP was first featured on the Bruise Your Body Breaks show September 24th 2009 right here on Nubreaks.com

Review by WinoWarrior

ALL ABOARD!!! First call for the Intercontinental Bass Express departing sunny Miami, Florida. The IBE will be boarding at DebonaireRecords.com and worldwide on September 29, 2009: Destination-BASS!!!

That's right ladies and gentelmen, your eyes do not decieve you. In a magnificent cosmic collision of epic proportions, the reigning overlord of filthy Electrobass has exploded head-on with a mastermind of Electro-technical design. Thats right, the legendary Debonaire and the one-and-only Darxid have come together to get the party bumpin' and movin' on the right track. Welcome to the International Bass Express, a journey emersed in gut-wrenching Bass and deep silky synths, brought to you by a name synonymous with longevity, quality, and expertise: Debonaire Records, Inc.

Your ear-drum pounding, breath-consuming journey on the IBE will consist of five, that's right five, spectacular destinations:

01: Intercontinental Bass Express (Westbound Mix)
02: Mouth On The Speaker
03: Always Two
04: Break It Down
05: Intercontinental Bass Express (Eastbound Mix)

ALL ABOARD!!! Now let's take a look at where this futuristic funky freighter is going to be headed on this Bass-fueled journey into Electro nirvana. And don't worry, the IBE is a green-friendly hypersonic transportation device that runs soley off of face-throttling bass steam and heatwaves of etheral rolling synths.

First Stop: Intercontinental Bass Express (Westbound Mix)

The locals love this destination for it's laid back atmosphere, but once you dig down a bit, what you find is a deep warm landscape of rolling beats and sharp tight stabs. Bringing this smooth atmosphere together seemlessly with the poppin' beats and stormin' synths is what the local breakers call "The Juicy." And they would be right! Topping this off with artfully executed vocoding makes for what breakers all over the world are bum-rushing dancefloors to strut their skills to, one hell of a "juicy" destination.

Second Stop: Mouth on the Speaker

Arriving here for a night-tour, what you will find is the tremendously abundant and notoriously shadey wildlife. The day only lasts for one fleeting hour here, while for the rest of your visit, you will be immersed in a dark and luscious landscape of blizzarding syths and pounding bass kicks that work together to lead you to a breathtakingly crafted cityscape of omnipotent Electrobass and brutal battling robots. We have been invited to taste the sound, drink of it, for it is the fountain of youth...

Third Stop: Always Two

Upon exiting the IBE please watch your step as the syth-sweeper runs day and night here cleaning the streets of ill beats and priming a sonic canvas for chuggin'groovin' bass rolls and mezmorizing vocal oration. Interestingly, it is for these very reasons that you will find locals dancing in the streets, and on the sidewalks, and in the coffee shops, and at the market....You get the picture, enjoy the ride.

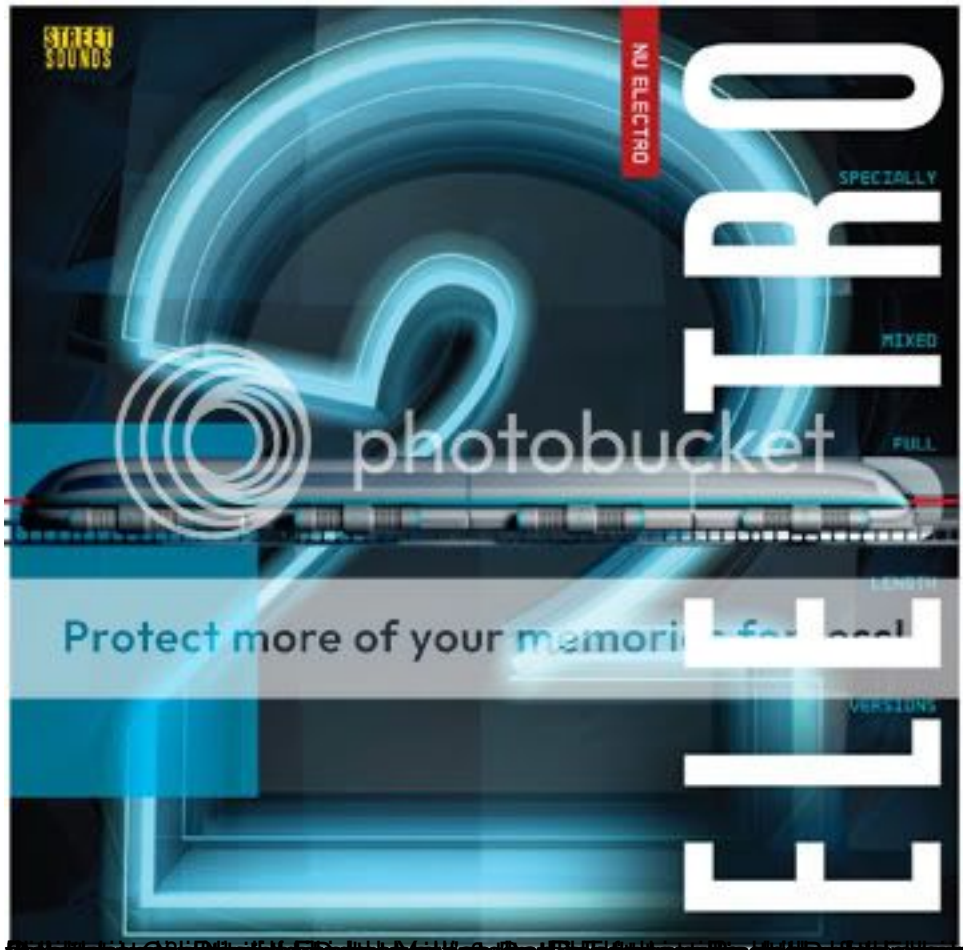

Fourth Stop: Break it Down

Welcome to the home of Electro-Land! This is the worlds largest theme-park dedicated to sick mind-blowing Electro and face-melting bass. A notoriously favorite ride here is the Vo-CoDeLux. This ride will race you through a pasture of sparkling sonic textures before careening into a freefall helicopter spin of spine-numbing force and speed. The end of this insane ride gives you a chance to battle it out with your fellow occupants in a no-holds-bared bboy battle to the death! Many man enter, one man leave. We have the technology...

Fifth Stop: Intercontinental Bass Express (Eastbound Mix)

There is but one word to describe our last destination ladies and gentlemen: BIG. This is the biggest stop on the Intercontinental Bass Express's five city tour. From the moment you set foot on the polished marble pavement here, you will experience nothing short of awe and disbelief. Bring your dirty money, leave the braziers at home, this entire city is actually one massive casino-train! Althought this is true, all bets are off, as the tearing bass will pound and throb most players into oblivion and the atmosphere will have even the most modest begging for more, more, more! Throw in the "freaks servin' dranks" and "speaker-lined walls" and what you get is a cocktail that will blow yer frickin' mind! Nuff said.

We do hope that you have all enjoyed the tour. We will now restart the tour by re-visiting the entire tour! It's called repeat, and you are going to find yourself hitting it, again and again and again...
