Hey guys!

Just thought I'd give a heads up in case anyone is interested. My new sample library "Twisted Vocals Volume 2" is out now on <http://www.sample-station.com> And if you're not interested, it's worth checking out anyways because they're giving away a FREE sample pack to people who register (who doesn't love free samples?)

I put lots of effort into making this one bigger and better than Volume One and look forward to hearing all the tracks that come out of it! :)

beats and kisses!
